Principal's update

Dear Parents,

A new school year is always an exciting time, and I'm delighted to extend a warm welcome back to all our returning families and a special greeting to those joining our school community for the first time. I hope you've had a wonderful and restful summer break.

The start of a new school year is a fresh chapter, full of possibilities for our children. School staff have been working hard to prepare classrooms and create a vibrant and supportive learning environment. We are all looking forward to reconnecting with your children and helping them thrive, both academically, socially, and personally.

A strong partnership, between home and school, is crucial to a child's success, and we encourage you to stay engaged with school life. Please make sure you have the PIOTA app, follow our school's Instagram page, and attend our upcoming events. We are confident that together, we can make this a successful and memorable year for everyone.

Your efforts to ensure children are wearing the appropriate uniform, including gold polo shirts and black footwear, are appreciated and welcomed. I have asked teachers to remind the children of our high expectations if there's a concern. We will always try to help. Uniform contributes to the ethos of a school and gives our children a sense of identity. West Drayton jumpers, cardigans, polo shirts and fleeces are available from **PMG School wear**.

Emails and the PIOTA mobile phone app are the main types of communication. It's important that your contact details are correct - please share any changes with the office.

Please do not hesitate to ask if I, or any member of the West Drayton staff, can help you with matters large or small.

I wish you and your children all the best for the year ahead.

Have a great weekend.

Richard Yates

Principal

BELIEVE • EMPOWER • ACHIEVE

Unlocking children's potential by knowing them, believing in them and providing opportunities to succeed

Keep in Up to Date with Everything at West Drayton Academy with the PIOTA App!

West Drayton Academy have invested in an app to ensure good communication with parents. It's free to download. We hope having the app will make your lives easier and promote excellent communication.

To download the app just search for 'PIOTA' in Google Play or the Apple App Store.

Features include:

- News – Catch up with all the latest fun, and topics
- Events – Save your favourite event, never miss a thing
- Information – Important school details and documents
- Messages – Alerts and notifications

The school will also be able to upload pictures, video, PDFs and create links to other resources.

How to use the App

In the side menu tap '**Settings**' then tap '**Channels**'

You can then select push notification groups that are important to your child or children (relevant year groups). This means you will be only alerted to messages that are relevant to you.

Please select the Urgent channel as well as your children's Year Group, to receive whole school messages.

WDA Food Policy

We'd like to remind the importance of providing healthy lunches and snacks for your children. A balanced diet is crucial for a child's concentration and energy levels throughout the school day. Please try to include a variety of healthy foods including fruits and vegetables for lunches and snacks. .

Please also provide your child with a reusable water bottle each day. Staying hydrated is essential for their overall health. Please see our healthy eating policy [here](#).

We appreciate your cooperation in helping us foster a healthy and positive learning environment.

FLU Immunisation Friday 3rd October

Please read important information regarding upcoming flu immunisation programme, all parents must complete the form to consent or decline.

FLU IMMUNISATION FOR PUPILS IN SCHOOL YEARS RECEPTION - YEAR 11

**Prevent your child from being seriously ill this winter!
Vaccinating is crucial in protecting them and vulnerable friends and family from flu.**

NASAL VACCINE

No needles - just quick, painless, effective flu protection (contains gelatine)

OR

THE INJECTION

We offer a PORK-FREE, GELATINE-FREE injection considered a faith-friendly alternative.

Complete this form, even if you do not want the vaccine.

<https://nwl.schoolvaccination.uk/flu/2025/hillingdon>

Secondary School students only: Young people under the age of 16 can give or refuse consent themselves if considered competent to do so by nursing staff.

CONTACT THE TEAM

hillingdon@v-uk.co.uk
 0208 150 1220

Need more information?
Please see our FAQs sheet attached with this letter.

Or visit our website:

We endeavour to come to your child's school twice. If your child is absent or unable to be vaccinated at school, they can still receive this important vaccine by attending one of our community clinics for the vaccine.

Details of these can be found on our website or you can contact the team above.

Your consent will remain in place for the entire flu season. If your child misses a first visit, you do not need to complete a second form.

FREQUENTLY ASKED QUESTIONS

CONSENT INFORMATION

The consent form needs to be signed by a person with parental responsibility which includes:

- Mother: automatic
- Father: if married to the mother either when baby is born or marries subsequently
- Unmarried father: if name appears on birth certificate (since 1/12/03) or legally acquired
- Others: if parental responsibility is legally acquired
- Parental Responsibility Agreement: signed, properly witnessed and sent for registration to Principle Registry or the Family Division (High Court)
- Residence Order: granted by the Court

Please note that young people under the age of 16 can give or refuse consent if considered competent to do so by nursing staff.

Q WHY ARE CHILDREN BEING OFFERED THE FLU VACCINE?

Flu can make children feel very unwell and can sometimes lead to serious complications like pneumonia or ear infections. Some may even need hospital treatment. It's especially important for children with long-term conditions like asthma or diabetes, as flu can be more dangerous for them.

Q HOW DOES THE FLU VACCINE FOR CHILDREN WORK?

The nasal spray contains weakened flu viruses that help your child build protection without causing illness. Because flu strains change each year, the vaccine needs to be given annually. Most children only need one dose.

Q IS THE FLU VACCINE SAFE FOR CHILDREN?

Yes, it has a very good safety record and has been used for over 10 years in countries like the US without any major concerns. All vaccines available in United Kingdom must pass strict safety testing before being approved for use. The Medicines and Healthcare Products Regulatory Agency (MHRA) only approve vaccines that have gone through rigorous safety testing measures. The regulators continually monitor them all the time.

Q SHOULD ANYONE NOT HAVE THE VACCINE?

Let us know if your child:

- Has a severe allergy to eggs, gelatine, or certain antibiotics
- Has recently had severe asthma symptoms or is wheezy on the day
- Has a seriously weakened immune system

Also, after vaccination, children should avoid close contact with people who have very weak immune systems for about two weeks—everyone else is fine to be around.

Q ARE THERE ANY SIDE EFFECTS?

Side effects from the nasal spray are usually mild and short-lived. These may include a runny or blocked nose, headache, reduced appetite, or a slight temperature. Paracetamol or ibuprofen can help if needed.

Q WE DO NOT EAT PORK PRODUCTS. CAN MY CHILD HAVE A DIFFERENT FLU VACCINE?

Yes. There is an injectable flu vaccine is available that contains no pork (porcine gelatine).

While the nasal spray is generally more effective and painless, we respect your preferences. Just complete the consent form for the injection—no need to fill out both.

Q NATURAL IMMUNITY

While natural immunity from the flu can occur, it's not generally considered better than vaccine-induced immunity. Natural infection carries the risk of severe illness and complications, whereas the flu vaccine offers protection with significantly less risk. Natural immunity can be long-lasting against specific strains, but we know that the flu virus changes (mutates) overtime so natural immunity to one strain might not protect against a different strain that emerges later. Vaccines are a safer and more reliable way to protect against a wider range of flu viruses.

Flu vaccines are updated for each winter to give protection against the strains of flu that are most likely to be going around. For this reason, we strongly recommend that even if your child was vaccinated last year, they should be vaccinated again this year.

Q MY CHILD NEEDS A DIFFERENT VACCINE

If your child needs another vaccine you can speak to our team or attend one of our community clinics, all information can be found on our website: www.schoolvaccination.uk/catch-up-clinics

Q I HAVE MORE QUESTIONS

We run Q&A webinars which address frequently asked questions and gives parents an opportunity to ask their questions. You can find information and how to join on our website.

HEALTH

SHOULD MY CHILD HAVE THE NASAL FLU SPRAY?

2024/2025

Influenza (or flu) is a common and highly infectious disease caused by different strains of the influenza virus.

Each year vaccines are updated so that they protect against the commonest strains of flu, **saving thousands of lives.**

A flu vaccine can reduce the risk of your child getting sick by **30-60%**, and prevent children being admitted to hospital because of flu.

It will also reduce the chance of vulnerable people, such as grandparents or those with long term health conditions, getting flu from your child.

THERE ARE TWO TYPES OF VACCINES IN THE UK THAT PROTECT AGAINST FLU

1. NASAL SPRAY VACCINE

This will be offered to children aged 2-3 years*, most school aged children, and to children of any age with certain long-term health conditions. It is easy and quick to give to children.

The nasal spray vaccine **contains porcine (pork) gelatine.**

2. INJECTABLE VACCINES

All adults are offered this type of vaccine. Some children who cannot have the nasal spray because it is medically unsuitable will be offered this vaccine.

The injectable vaccines **do not contain porcine derived products.**

Vaccination is a strong defence against a virus which causes severe illness and deaths every year

Children, pregnant women, and any adults with low immunity or certain health conditions (such as diabetes, heart or lung problems) are at higher risk from getting very sick with flu

Please do not delay a decision to vaccinate.

It is acknowledged by the NHS and public health that groups within British Muslim communities consider any porcine-containing products to be forbidden.

Children whose parents refuse the nasal spray vaccine due to the porcine gelatine content **can request the injectable vaccine as an alternative.** This injection, which is also for adults and elderly, has no porcine gelatine.

Speak to a trusted religious scholar about taking the nasal spray for your child if you have concerns about it's porcine gelatine content.
